

JAZMIN RUSSELL

CONSULTING
FRACTIONAL PROGRAM MANAGER

A Simple Path to Clarity

Free Consultation

A 30-minute conversation where I ask the right questions about what's working, what's not, and what's costing you the most time and energy.

01

Fishbone Analysis

If we're a good fit, I'll lead you through a facilitated diagnostic session that gets to the root of what's creating friction in your business.

02

Your Personalized Proposal

Based on what we uncover together, I'll put together a proposal built specifically around your business and your goals.

03

We Get to Work

Once we're aligned, I roll up my sleeves: weekly check-ins, hands-on systems work, process documentation, team accountability, or all of the above.
